

Description

Mazuri® Alpaca Crumbles™ is a supplement especially designed to meet the nutritional needs of Alpacas fed hay or pasture, and is formulated with the leading alpaca veterinarian, Dr. Norm Evans.

Features and benefits

- **No distillers dried grains and solubles** - reduces risk of mycotoxin contamination.
- **Calcium and phosphorus concentrations appropriate for alpacas fed hay or pasture.**
- **Added vitamin E and selenium** - reduce or eliminate the need to supplement or inject.
- **Added biotin, niacin and thiamin** - for optimum fiber production and stress tolerance.
- **Fortified with organic minerals** - provides increased mineral availability.
- **Contains yeast cultures** - promotes feed digestibility and added palatability.
- **Contains flaxseed** - a source of omega-3 fatty acids.
- **Meets NRC recommendations for New World Camelids.**

Product Form

Crumbles

- 40 lb. net weight paper sack

Catalog #

0062373

Nutrient Composition

Crude protein not less than	14.0%
Crude fat not less than	2.0%
Crude fiber not more than	15.0%
Calcium (Ca) not less than	2.2%
Calcium (Ca) not more than	2.7%
Phosphorus (P) not less than	2.3%
Salt (NaCl) not less than	1.0%
Salt (NaCl) not more than	1.5%
Sodium not less than	0.25%
Sodium not more than	0.75%
Selenium not less than	1.5 ppm
Selenium not more than	2.0 ppm

Ingredients

Wheat middlings, ground soybean hulls, dicalcium phosphate, dehydrated alfalfa meal, yeast culture, flaxseed meal, dehulled soybean meal, cane molasses, salt, biotin, thiamine mononitrate, calcium carbonate, soybean oil, nicotinic acid, choline chloride, artificial flavor, cholecalciferol, zinc proteinate, roughage products, vitamin E supplement, manganese proteinate, selenium yeast, manganese sulfate, calcium sulfate, mineral oil, vitamin A acetate, vitamin D3 supplement, copper chloride, calcium pantothenate, cobalt proteinate, thiamine mononitrate, dl-alpha tocopheryl acetate (source of vitamin E), riboflavin supplement, vitamin B-12 supplement, calcium iodate, iron polysaccharide complex, pyridoxine hydrochloride, menadione sodium bisulfite complex, folic acid, sodium selenite.

Feeding Directions

- To be fed with free-choice hay. In order to meet NRC recommendations for new world camelids, animals being fed hay should consume this product at a rate of 0.5% of body weight (BW) or more. Animals on fresh pasture should consume this product at a rate of 0.25-0.33% of BW or more. Measuring of food by weight is recommended; however the average weight of a level ½ cup of product = 75g (0.17 lb.). A level 1 cup measure weighs 150g (0.35lb.).
- Daily supplement amounts:
 - Pregnant females in good condition, 0.50 lb. feed per 100 lbs. of animal BW
 - Lactating females, 0.63-0.75 lb. per 100 lbs. of animal BW
 - Active or growing males, 0.40-0.50 lb. per 100 lbs. of animal BW
 - Older females or animals under stress, 0.34-0.50 lb. per 100 lbs. of animal BW
 - Crias 8 weeks of age to weaning, 0.25-0.34 lb. per 50 lbs. of animal BW
 - Mature males, 0.25-0.34 lb. per 100 lbs. animal BW
- Always provide your animal with plenty of fresh, clean water.
- **DO NOT FEED TO SHEEP - DUE TO HIGH CONCENTRATIONS OF SUPPLEMENTAL COPPER.**

Vitamin E, IU/kg.....	995
Vitamin K (as menadione), ppm.....	0.09

Storage Conditions

For best results, store contents of open bag in container with sealing lids. Store in a cool (75°F or colder), dry (approximately 50% RH) location. Use within 270 days of bag manufacturing.

¹ Based on the latest ingredient analysis information. Since nutrient composition of natural ingredients varies, analyses will vary accordingly.

² Calculated based on nutrient data from NRC of Small Ruminants (2007).
