

Description

Mazuri® Mini Pig Active Adult Diet is a moderate-energy, high-fiber diet for porcine species that helps promote moderate growth rate while helping to satisfy hunger. This ration can be used as a maintenance diet for active, adult animals. It can be fed in combination with Mazuri® Mini Pig Youth Diet to gestating/lactating females. This product was specially formulated to meet the needs of exotic miniature pigs, such as the Vietnamese potbellied pig.

Features and Benefits

- **Moderate-energy, high-fiber ratio** – For controlled growth and consumption rates
- **Complete nutrition** - Supplemental vitamins and minerals not required
- **Pellet form** - Easy to feed; minimizes waste
- **Zinc methionine and vitamin E** - Provides for optimal skin condition
- **Ammonium chloride** – To aid in reducing the incidence of urinary calculi
- **No meat products** – Helps to reduce ammonia in urine
- **Yucca extract** – Helps to reduce ammonia in urine
- **Contains mixed tocopherols** - All natural antioxidant

Product Form

- Pellet size: 5/32" diameter x 1/2" length.

Catalog #0001502

25 lb. net weight paper sack.

Guaranteed Analysis

Crude protein not less than 16.0%
 Lysine not less than..... 0.75%
 Crude fat not less than 3.0%
 Crude fiber not more than 11.0%
 Calcium (Ca) not less than 0.80%
 Calcium (Ca) not more than 1.30%
 Phosphorus (P) not less than 0.80%
 Salt (NaCl) not less than 0.25%
 Salt (NaCl) not more than 0.75%
 Selenium (Se) not less than 0.30 ppm
 Zinc (Zn) not less than..... 250 ppm

Ingredients

Wheat middlings, ground corn, ground oats, dehydrated alfalfa meal, dehulled soybean meal, dried beet pulp, ground soybean hulls, dicalcium phosphate, monocalcium phosphate, soybean oil, cane molasses, lignin sulfonate, calcium carbonate, ammonium chloride, salt, DL-methionine, menadione dimethylpyrimidinol bisulfite (vitamin K), choline chloride, L-lysine, zinc methionine complex, dried yucca shidigera extract, tocopherols (a preservative), pyridoxine hydrochloride, biotin, calcium pantothenate, ferrous sulfate, d-alpha tocopheryl acetate (natural source of vitamin E), cholecalciferol (vitamin D₃), vitamin B₁₂ supplement, folic acid, riboflavin, vitamin A acetate, thiamin mononitrate, nicotinic acid, citric acid, manganese sulfate, manganous oxide, zinc oxide, copper sulfate, zinc sulfite, ethylenediamine dihydriodide, tribasic copper chloride, sodium selenite.

Feeding Directions

The level of feed intake depends on many factors including environmental temperature, other feed available and activity. The feeding levels suggested below are appropriate for average living conditions. For maintenance of more active, young adult animals up to 1 1/2 years of age, regulate feed to a level to maintain body weight without putting on excess fat. A level of 1-2% of body weight works well for many owners. For maintenance of Gestating/Lactating Females, - feed a mixture of 50% Active Adult and 50% Youth for increased energy. For higher energy, increase Youth to 60% of daily intake. Feed to managed pigs following Mazuri® Mini Pig Youth or to other pigs being maintained. Mix this product with equal amounts of Youth for at least 3-5 days to help adjust animals to new feed.
